Yesterday was one of "scrappy" and exciting contests among the teams of the National league, and several surprises were sprung on the base ball public. St Louis looked like a winner in Pittsburgh, but the hard hitters of the Pirates got in their work nobly in the eighth, making three runs and beating out the lads from the banks of beating out the lads from the banks of the Mississippi 10 to 9. In Chicago the Reds had a nice little lead, which they didn't get on, hitting, but in the latter half of the game the Colts negotiated Dwyer's curves with much facility, and won their second game of the season. New York's Giants won a "beaut" from the Phillies and thus pass their hated rivals, Brooklyn, in the league race. Cleveland by defeating the Ken-tucky Colonels maintains its slight lead over Boston for first place.

Won in the Eighth.

Pirrsburgon, Pa., May 4.—To-day's game was very exciting. Both teams batted hard and often. Ehret and Nicol were taken out of the box on account of their wildness and Colcolough substituted. A streak of batting in the eighth inning won the game for Pittsburgh. Score:

Terry. The latter's lack of control at
Cincinnati made the manager feel as if
Terry could best be spared of the large
contingent of pitchers.

Red Cross Victorious

CHARLESTON, W. VA., May 4.-The Red Cross team won a victory over Charleston to-day, the score standing 9 to 5 in favor of the visitors. The game was exciting. The battery work of both teams was good. Wheeling did splendid fielding, and the result is a surprise after yesterday swalk over for the home team.

A SLIGHT CHANGE

A SLIGHT CHANGE

Made in the Boute for the Intelligencer Road Race.

After a thorough inspection of the scene it has been decided to make but one change in the course for the INTEL-LIGENCER Decoration Day road raca. Instead of having the finish take place Instead of having the finish take place in front of the Investigences office, the race will conclude on Fourteenth street, at the corner of Eoff. This change has been made on account of the hill on Fourteenth at Market and the crossing of the net work of street car tracks, which might possibly result in a fatality or bad accident there, if the finish was made as originally intended.

The turn from Fourteenth into McColloch, which is not the best possible, is about as good as the one from Fifteenth, and as this will be gone over at the start, almost, the riders can easily negotiate it—good for one as another. On the return to the finish the turn can easily be made, being on an upgrade-where the rider's machine is not coing to run away with him.

The course now arranged for is as follows: On Fourteenth from the Invalidation of the National road; on the National road to Triadelphia, and return over the same course, on Fourteenth to Eoff; total distance, fitteen miles.

ceedings, its initiating team mustering in six or eight new recruits. Spangler Post, of Bellaire, was also present, and Thoburn Post, of Martin's Ferry, was well represented. The Holliday Post steropticon made an impressive part of the exercise. After the initiations and the business meeting there was a modest but very tempting banquet, to which all did ample justice. Speeches, songs and other entertaining features were also on the impromptu programme, and all left with the most pleasant memories of the even.

There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the mucous lining of the
custachian tube. When this tube gets
inflamed you have a rumbling sound or
imperfect hearing, and when it is entirely closed deafness is the result, and
unless the inflammation can be taken
out and this tube restored to its normal
condition, hearing will be destroyed condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the muccus sur-

Men of Mark Who Gather and Transmit the News.

AND HOW THEY EXHAUST.

Some Personal Sketches and Incidents of Brain Workers in the Highest Walks of Life.

The reader of the daily paper who sits in his cosy home and is informed of what is transpiring in every quarter of the globe, seldom realizes the amount of actual labor necessary to ascertain, collect, write, transmit and print this wonderful mass of news. Mr. William Henry Smith, formerly

manager of the Associated Press, is in the prime of life, and possesses a mind clear as to the requirements of the public. Mr. Smith has always been au arduous worker, and it is by no means surprising that his health should, in the past, have suffered more or less the past, have suffered more or less thereby. The mental strain necessary to the performance of his duties caused difficulties of digestion which are not easily overcome, and also a uremic colic, both painful and exhausting. All attempts to overcome these tendencies by force of will power failed, and he consulted eminent physicians, among them Dr. Barthol, of Philadelphia. In spite, however, of the care and skill of these practitioners, he grew worse constantly. The result can best be described in his own words. He said:

stantly. The result can best be described in his own words. He said:
"My brother, C. W. Swith, manager of the Chesapeaka & Ohio Railroad, came to visit me, and, reeing my condition, took upon himself to conduct my case, and so secured a preparation which, I have since learned, he had used successfully himself and in his family. I began its use, and commenced improving at once. This improvment continued, until now I am well, and wholly through the influence of Warner's Safe Cure. I have since then used the remedy with good results in my family, and keep it on hand constantly. I consider it a remarkable medicine."

Mr. George Alfred Townsend, the

in my lamily, and seep it on hand constantly. I consider it a remarkable medicine."

Mr. George Alfred Townsend, the famous newspaper correspondent, whose letters, written ovar the nom deplume of "Gath." have attracted such wide attention, said to the writer: "While in England I had a pleasant visit with ex-Gov. S. B. Packard, our consul at Liverpool. We were remarking on the death of a number of distinguished Americans, when the governor said: Townsend, I can't see why so many of our public men are passing away, victims of one dread scourge. There is no need of their dving if they will consent to avail themselves of what has been provided for them, as I have. Gov. Packard went on to describe his experience, and I found his symptoms corresponded almost exactly to my own. I soon afterward returned to America began the same treatment, and when I had taken a number of bottles of Werner's Safe Cure—the remedy Gov. Packard used and commended to me so strongly—I, too, was rid of back-ache, bad fluids, tired feelings, nervous prostration, irregular appearite, 'thick head,' and to-day am sound as a nut. It indicated my disorder and removed it entirely. I regard it as a godsend to this country, where Bright's disease and sll other kidney disorders are so prevalent."

The above statements are not from obscure sources, but from gentlemen in

prevalent."

The above statements are not from obscure sources, but from gentlemen in the most exalted stations of trust and responsibility, and the affirmations they make are the results of actual observation. Does it not stand to reason, therefore, that the article of which they speak is a most valuable one, and such as may be used with great benefit by all who are suffering?
